As New Opportunities Unfold...

Reposition Yourself in the Market
Reinvent Your Strategies
Re-equip Yourself for the Future

with Tavant Technologies’ Solutions for the Banking & Mortgage Industry

www.tavant.com/lending
You Survived...Now Thrive!

The banking and lending industry has witnessed the worst economic conditions since World War II. The recession saw many large banks fail; many small players were acquired or were wiped out. Yet, in many ways, the last few years have been a test of fundamental strength – and you’ve emerged victorious – a survivor.

As the proverbial “bigger fish in a smaller pond” you will play an important role in how the market shapes up as it regains momentum in the coming months.

Tight compliance and regulatory requirements are here to stay.

The competition is actively working on strategies to gain market share.

At Tavant, we believe that the coming months are crucial for you to reinvent, reposition, and re-equip yourself for the opportunities ahead. As you develop strategies to fortify your position in the market, we offer a range of specialized practices to help you achieve your vision.
Shaping your Future with Tavant Consumer Lending Practice

Tavant Consumer Lending Practice includes a range of services that cater to the exclusive needs of companies in the banking and lending domain. Yes, we’re an IT service provider – but we’re an IT company with deep understanding of the banking, mortgage, and consumer lending market. We’ve been there, done that, and know just how to make IT work for financial institutions like yours. We offer solutions that focus on:

- Increasing revenues through product bundling, multi-channel, integrated point of sale solutions, and aggressive mobile capabilities
- Managing expenses through enhanced document management solutions and vendor management integration
- Strategic decision making using advanced Data Warehousing (DW) and Business Intelligence (BI) reporting tools
- Improving quality by implementing consumer Financial Needs Analysis solutions and balanced automated underwriting
- Remaining compliant by adopting regulatory changes and pricing controls.

Tavant Offerings
